Job Title	PGA Director of Golf Operations
E-mail Address	jlangguth@mppd.org
Phone Number	847-259-4200
Park District	Mt. Prospect
Project Location	Mt. Prospect Golf Club
Project Status	Maintenance
Project Type	Recreation Facilities and Amenities
Recreation Facilities and Amenities- select a Project Category below:	Golf Facilities
Benefits of the Project	The Visage GPS System at the MPGC assists people with a mobility impairment and has emergency communication capability. The GPS can be set to allow people with mobility impairment to be able to allow the golf carts off the cart paths near tees and greens, which shortens the distance they need to walk to access these areas. Also, during wet conditions, golf carts are set to be restricted to cart paths only around the entire course but the GPS again allows people with mobility impairment to drive off the cart paths to their golf ball. We know that regularly about 20% of the users of golf carts have identified themselves for the need of the special GPS access.
Items that will become ADA Compliant	Golf Carts

The project is designed or constructed, or applies human resources, to comply with:

The Illinois Accessibility Code

Re: Accessibility Fund Reimbursement, Golf Course GPS System Lease

Dear Tracey,

The Mt. Prospect Park District (Mt. Prospect Golf Club) will be renewing our annual lease for Club Car Visage GPS Systems on each golf cart at our golf course. We request the following funds be reimbursed to the Mt. Prospect Park District for Accessibility improvements. The funds will be used for a portion of the lease agreement. This request was put forth for last year's GPS lease and approved.

The Visage GPS System at the MPGC assists people with a mobility impairment and has emergency communication capability. The GPS can be set to allow people with mobility impairment to be able to allow the golf carts off the cart paths near tees and greens, which shortens the distance they need to walk to access these areas. Also, during wet conditions, golf carts are set to be restricted to cart paths only around the entire course but the GPS again allows people with mobility impairment to drive off the cart paths to their golf ball. We know that regularly about 20% of the users of golf carts have identified themselves for the need of the special GPS access.

The total cost of the Visage GPS System lease is \$35,357.82, we request reimbursement for 20% of the lease amount of \$7,0771.56. If you have any questions, please contact me at 847.259.4200 Ext 307 or jlangguth@mppd.org.

Sincerely,

A handwritten signature in black ink that reads "Jeff Langguth".

Jeff Langguth, PGA
Director of Golf Operations
