### Keep in Mind

The questions introduced in 2008 pertaining to disabilities remain the same questions found in the current ACS questionnaires. They cover six disability types:

- **Hearing difficulty** deaf or having serious difficulty hearing
- **Vision difficulty** blind or having serious difficulty seeing, even when wearing glasses
- **Cognitive difficulty** Because of a physical, mental, or emotional problem, having difficulty remembering, concentrating, or making decisions
- **Ambulatory difficulty** Having serious difficulty walking or climbing stairs
- **Self-care difficulty** Having difficulty bathing or dressing
- **Independent living difficulty** Because of a physical, mental, or emotional problem, having difficulty doing errands alone such as visiting a doctor's office or shopping

Respondents who report anyone of the six disability types are considered to have a disability in the eyes of ACS data
