Benefits of the Project

The opening of the very popular Bison's Bluff in 2017 resulted in site attendance doubling in one year, from 138,000 in 2016 to 275,000 in 2017. This rapid increase in use has strained resources and visitor amenities. As daily visitation has soared, the needs for parking, restrooms, picnic areas, etc. by walk-in visitors has ended up competing with the needs of registered program users such as the 8,000+ students visiting each year for educational field trips and the several hundred children attending weekly camp programs during summer. The proposed project will add accessible outdoor family restrooms (3 rooms total) and picnic areas for use by visitors to the nature playground.

Items that will become ADA Compliant

Accessible Routes - Means of Egress, Walking Surfaces, and Accessible Restroom Facility (3 rooms total)

The project is designed or constructed, or applies human resources, to comply with:

**The 2010 Standards for Accessible Design
The Illinois Accessibility Code
The 2013 Final Guideline for Outdoor Developed Areas Owned and Operated by the Federal Government**
